Demo

Sitecore Dev Portal - Installation Files

Developer License

Sitecore Install Assistant (SIA)

Sitecore Installation Framework (SIF)

Review Basic Setup

Installing Sitecore Using the Sitecore Install Assistant (SIA)

Good for:

- Local Dev Environment
- Dev or QA Server (On Prem)

Bad for:

- Multi-server environments
- Production servers

Installing Sitecore Using the Sitecore Installation Framework (SIF)

Good For:

- Customized Single Server Installations
- Multi-Server
- Production Environments

Bad For:

- Devs who are not comfortable with PowerShell

Installing Sitecore

- Sitecore Developer Portal
- Free Developer Trial License
- Sitecore Install Assistant (SIA)
- Sitecore Installation Framework (SIF)
- IIS websites, File System, SQL Databases, and Solr Server
- Back up working websites frequently
